

RAJALAKSHMI R

Software Developer | Python | Django | REST APIs | React | SQL | AWS

Chennai, India | +91-8525857186 | rajalakshmirajesh1422@gmail.com | linkedin.com/in/rajalakshmi014 | github.com/Raje014

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience developing full-stack web applications using Python, Django, REST APIs, React.js, JavaScript, SQL, and PostgreSQL/MySQL. Experienced in developing backend services, integrating REST and third-party APIs, implementing authentication and role-based authorization, database integration, debugging, and responsive frontend development. Practical experience with Git/GitHub, AWS EC2/S3, Agile development, and AI/automation integrations. Strong foundation in OOP and software development practices, seeking an entry-level Software Developer role.

TECHNICAL SKILLS

- **Programming & Core Concepts:** Python, JavaScript, SQL, Object-Oriented Programming (OOP), Software Design Principles, Exception Handling, DBMS.
- **Operating Systems & Development:** Linux (Ubuntu), Git/GitHub, VS Code, Agile Development, Debugging & Testing.
- **Frameworks & Web:** Django, REST APIs, React.js, Ionic Angular, HTML/CSS, Bootstrap, Responsive Design.
- **Databases:** MySQL, PostgreSQL.
- **AI:** LLM Fundamentals, RAG, LangChain, n8n Workflow, OpenAi API, Groq API, Gemini API, Github Copilot, Claude code.

INTERNSHIP

Developer Trainee — National Informatics Centre (IT Services)

Chennai | Jan 2026 – May 2026

- Developed and maintained frontend components for the eDAR government portal using HTML, CSS and JavaScript, improving the interface and responsiveness.
- Used Git for version control and participated in code reviews while collaborating with cross-functional teams following Agile practices.

Full Stack Developer Intern — Altruisty (IT Services)

Chennai | Jan 2025 – Mar 2025

- Developed a Django-based quiz application using Python, HTML, CSS, JavaScript and MySQL, implementing CRUD operations and database integration.
- Contributed to both frontend and backend development and debugged application issues to improve functionality and reliability.

Full Stack Developer Intern — Retech Solutions

Chennai | Jun 2024

- Developed and tested Django-based web applications using Python, HTML, CSS and Bootstrap.
- Identified and resolved application defects through debugging and testing to improve reliability.

PROJECTS

StyleNest E-Commerce Web App — Python, Django, MySQL, RAG, LangChain

- Developed a full-stack e-commerce application using Django and MySQL, implementing authentication, product catalog, cart, and order management.
- Integrated a LangChain-based RAG assistant with product data to provide context-aware responses and enhance the application experience.

Hybrid Mobile Application for Geotagging of Temple — Ionic Angular, PostgreSQL, PHP

- Developed a role-based hybrid mobile application for the HR&CE Department to add new temple locations and update incorrect locations.
- Built responsive mobile interfaces using Ionic, Angular, TypeScript, HTML and CSS, and integrated PostgreSQL with Leaflet/GeoServer for map-based geospatial functionality.

CarGarage — React, JavaScript

- Developed a React-based car service booking platform with responsive user interfaces for booking and managing service appointments.
- Integrated WhatsApp communication to enable customers to receive and manage appointment-related communication.

EDUCATION

B.Tech, Computer Science & Engineering — Jerusalem College of Engineering, Chennai

2022 – 2026 | CGPA: 9.0/10

Higher Secondary (12th) — Daniel Thomas Matriculation Higher Secondary School, Chennai

2021 – 2022 | 90%

CERTIFICATIONS

- AWS Services Fundamentals for Beginners — Simplilearn SkillUp
- Build AI Agents using LangGraph — Simplilearn SkillUp
- Introduction to SQL — Simplilearn SkillUp
- Deloitte Data Analytics Job Simulation — Forage
